## MISSION STATEMENT

### Endangered Planet Gallery

exists to raise the awareness of the general public to environmental concerns of the earth and its inhabitants, and to promote the preservation of the world's cultures. These goals are achieved through educational events, web site communications, and the sale of items involving Endangered Planet concepts. The Endangered Planet Gallery showcases these ideas and artwork in a continually evolving display.

## ARTIST RECEPTION

**THURSDAY, FEBRUARY 1, 2007**

**6:30 ~ 9:00 PM**

### Dieter Tresp's "Organic Compositions" Inspire Awareness at Endangered Planet

German-born artist, curator, and world traveler Dieter Tresp will exhibit more than 20 of his unique and inspiring "Organic Compositions" paintings at Laguna Beach's innovative Endangered Planet Gallery, his first southern California show in more than six years.

Tresp's "Organic Compositions" series is a continuation of a multi-year project of more than 50 paintings by the artist that meld subtle, sensuous, figurative drawings into backgrounds of abstract geography, representing locations and environments around the world. The goal of this series is, according to the artist, "to invoke and emphasize the interdependent, organic relationship between humans and their home planet."
